THE POLITICAL FIELD.

Blaine Invites Careful Reading of the Mulligan Letters.

Logan Receiving Demonstrations of Popular Regard.

New York Laborers Enthusiastic Over the Great Demagogue.

Blaine's Invitation.

AUGUSTA, September 15.—The Kennebec Journal to-morrow will contain the following: "Mr. Blaine accompanied by his wife arrived—from Bar Harbor this afternoon. In answer to a Journal reporter who called at his residence to ascertain if he wished to say anything in regard to letters published from him to Fisher and Mulligan he replied that every voter in the United States might read the letters for himself and not form his own judgment from editorial misrepresentation in partisan journals. There was not a word in the letters, Mr. Blaine added, which was not consistent with the most scrupulous integrity and honor. He hoped every republican paper in the United States would publish the letters in full.

Logan in Michigan.

GRAND RAPIDS, September 15.—General Logan and party arrived at 4 p. m. and held a reception at the Morton house, nearly a thousand calling on him. A procession with 1,000 torches and fifty horsemen paraded in the evening. About 3,000 met him at the depot and about 5,000 listened to speeches from 8.45 to 10.30 in Campau place. Logan's speech only lasted five minutes. He was followed by General Alger, Senator Palmer, Judge Vanzel and Congressman Lacey, the substance of the last two speeches being eulogies of the protection tariff and denunciation of the democracy for their free trade tendency.

Hurting Cleveland.

NEW YORK, September 15.—Between 15,000 and 20,000 people assembled at Union Square to-night to hear General Butler speak. It required the services of half a dozen policemen to make a passage for General Butler and party. He was loudly cheered by the crowd. The crowd was composed largely of laboring men. Dr. Ferdinand Zegar called the meeting to order and introduced Louis F. Post as the chairman of the evening. Post in a brief address introduced that great American governor, General B. F. Butler. The cheers that greeted the general as he came to the front continued several minutes. The speaker devoted his attention chiefly to the consideration of the subject of railroad monopolies and their influence upon inter-state commerce, and argued that laws should be passed by congress to regulate this traffic by which the food of the west and the comforts of the east should be interchanged at the cheapest rate.

General Butler's speech evoked great applause and the crowd wanted him to continue. As he retired the chairman introduced ex-Senator Thos. F. Grady as the little Napoleon of the Sixth, the silver-tongued orator of Tammany hall, which had came out to go in for Butler. When Gen. Butler retired the meeting gradually dispersed.

General Butler and Grady also spoke at each of the side stands, making the same enthusiasm as at the main stand. General Butler afterwards held a reception in the Fifth Avenue hotel. Mrs. Lillie Devereaux Blake was among the listeners on the main platform.

Hendricks Needed in Ohio.

INDIANAPOLIS, September 15.—A committee of Ohio democrats, John G. Thompson at their head, waited on ex-Governor Hendricks to-day and urged him to visit Columbus and make a speech September 25th. The ex-governor had previously accepted an invitation to speak at Shelbyville on that date, but canceled the appointment and concluded to go to Columbus.

Ravages of the Cholera.

ROME, September 15. The bulletin showing the ravages of cholera in Italy for the past 24 hours is as follows. Naples city 643 fresh cases, 231 deaths; Naples province 30 fresh cases, 10 deaths; Caserta, 14 fresh cases, 4 deaths; Cunea, 21 fresh cases, 13 deaths; Genoa, 25 fresh cases; 12 deaths; ten other provinces, names not given, 17 fresh cases, 10 deaths.

MADRID, September 15.—Since last reports six fresh cases of cholera and four deaths have occurred at Ecebo and four fresh cases three deaths at Navalda. In the city of Lerida a fatal case of sporadic cholera has occurred. One suspected case is reported in the suburbs of Barcelona and several suspicious cases in the province of Tarragna, six of which proved fatal.

NAPLES, September 15.—Excesses of the people on Sunday, on the occasion of the departure of the king, caused a slight increase in cases of cholera. The king received ovations on the whole journey to Mause.

Father Tonnelo, the priest who accompanied King Humbert to the bedside of patients in Busca, has died of cholera. All of Humbert's provisions, wines and water were sent to Naples from Rome.

The British consul has obtained a separate ward for British and other foreign patients. The government is considering proposals to destroy infected quarters in Naples and rebuild portions of the city.

TOULON, September 15.—There have been fifteen deaths of cholera in this city in the past two days. In the department of Perault there have been fifty cases and thirty deaths.

MADRID, September 15.—Twelve deaths from cholera are reported in East Pyrennes.

The Situation in China.

LONDON, September 15.—Advices from China state that the Chinese have no intention of blockading Wasung river on which Shanghai is situated, unless the French make an attack. Hundreds of stone-laden boats are in position to be sunk at the approach of the French fleet. It is believed neutral ports will seriously object to the closing of this river unless a formal declaration of war shall have been previously made. M. Paternotre, French minister to China, is at Shanghai intriguing with the peace party among the Chinese. His hope is to bring about a revolution of the peace party and the consequent overthrow of the war party.

A Hong Kong despatch says: Chinese officers explain that they first fired over the British gunboat Zephyr and fired directly at her afterwards because she refused to stop at the first shot.

PARIS, September 15.—Le Pays publishes an inspired article to day in which the idea that France should accept arbitration in the difficulty with China is indignantly rejected. France, it says, is determined to settle the differences with China herself.

The Nationale thinks Admiral Courbet's base of operations now is near Pekin.

Canada's Contingent for Wolseley.

QUEBEC, September 15.—The steamship Ocean King with Canadian voyagers for the Nile on board arrived here last night and was visited this morning by Governor General and Lady Lansdowne and Hon. A. P. Caron, minister of militia. His excellency addressed the officers and men of the contingent force in well-chosen words. He spoke of the dangers of the Nile but did not think it any more dangerous than our Canadian rapids. He spoke in reference to Gordon, whose name was a household word wherever the British flag waves, and he felt proud to see Canada so fully represented in such an expedition as that. He stated that Wolseley, who had previously been among our boatmen when on the Red river expedition, knew what sterling qualities they possessed, and it was partly through this that they had so earnestly been asked to accompany the expedition, something of which they should be proud. He paid a special tribute to the Indians and spoke at some length upon their natural qualities which befitted them so much for the present undertaking. The party left the steamer amidst cheers. The Ocean King sailed this afternoon.

Desperate Fighting in Peru.

PANAMA, September 6.—The most important news from Peru is the complete defeat of General Carceres, the principal revolutionary leader, which was received in Lima the 27th ult. On the morning of that date Carceres entered the capital of Peru at the head of a savage mob of montaneros, who rushed through the streets yelling and firing off guns. On the preceding evening government troops had been concentrated in their barracks, and the entry of Carceres almost amounted to a surprise. His party obtained possession of the barracks of Espiritu Santo and of Merced and Statuguitune. They attacked Guadalupe station of the English railroad company. There were some 150 killed in Mercaderes and Badejois street near St. Augustine church and in the Palace square, where the firing was hottest. All telegraph wires were cut four miles from town. No trains ran. In St. Augustine church the fighting proceeded with closed doors.

Meeting of Emperors.

SKIERNEVICE, September 15.—The emperor of Austria arrived this afternoon. He was received by the czar and staff, all in Austrian uniforms. The emperors embraced cordially. After the Austrian emperor had been formally introduced to the members of the czar's staff he proceeded to the palace. General Schauvaloff met the emperor of Germany on the frontier. They arrived here at 4. The emperor of Germany was received with the same ceremonies as the emperor of Austria and escorted to the palace. There was a grand banquet in the evening.

The Campaign in Egypt.

CAIRO, September 15.—Major Kitchener telegraphs from Debbeh that the chief clerk of the government at Darfour, arrived by way of Berber, reports 2,300 prisoners at Berber. The rebel garrison there of 2,000 are armed with rifles. Aboo Hegil, chief of the Cabatat tribe, has 6,000 armed men. The mahdi's forces extend as far south as Ambukol. Most of the tribes however are growing tired of the continuance of misrule and are inclined to rejoin the government.

A Political Scheme.

CHICAGO, September 15.—The report published in the Tribune this morning to the effect that pleuro-pneumonia had attacked a herd on the farm of John V. Farwell near Lake Forest is declared untrue by Mr. Farwell. He declares an attempt is apparently making to create a scare about pleuro-pneumonia with a view to securing a large congressional appropriation, for investigation, he supposes.

A Deadly Blow.

CHICAGO, September 15.—Wm. Monahan, driver of a Blue Island avenue car, struck a passenger named Matthew P. Sullivan with a car hook late last night and the latter will probably die. Sullivan and a companion were intoxicated and made an attack on the conductor of the car, which Monahan mistook for an attempt at robbery, which caused him to strike Sullivan.

New York's Contribution.

ALBANY, September 15.—The Garfield committee for the state of New York, appointed in 1882 by Governor Cornell, have reported to Governor Cleveland that the total amount collected in the various counties of the state is $9,020.22, which amount will be forwarded to the national committee.

A Train Ditched.

NEW ORLEANS, September 15.—A Times-Democrat Meridian special says: A construction train on the Alabama & Chatlanooga railroad was ditched near York. Engineer Griffin was scalded to death. A car containing valuable furniture for the world's exposition at New Orleans is burning to-night.

Snow in Nova Scotia.

HALIFAX, September 15.—Five inches of snow fell at Spring Hill, Cumberland county, yesterday, and two inches at Truro.

WESTERN RAILROADS.

Managers at Chicago Trying to Reconcile Their Interests.

The Tripartite Agreement a Stumbling Block to Some.

Forty Men Killed by a Boiler Explosion in Georgia.

Important Railroad Conference.

CHICAGO, September 15.—Roads embraced in the Transcontinental Railway association had a short session to-day and adjourned till 11 a. m. to-morrow to enable the general committee appointed to consider the affairs of the tripartite pool to hold a session. The future of the Transcontinental pool is supposed to hinge upon the dissolution of the tripartite, and the continuance or dissolution of that combination is expected to be announced as a result of to-day's conference.

The general committee to which was referred all matters affecting western railway interests, including the continuance of the tripartite agreement, was in session till 2 p. m., when adjournment for an hour was taken. The committee expect to reach a conclusion of some nature this afternoon. A prominent official present at the conference said some progress had been made and a peaceable solution was possible, but not yet assured. Santa Fe declares positively that it will act independently unless the tripartite pool is dissolved, and the only road holding out for its perpetuation is the Rock Island. This afternoon's meeting is expected to continue till 6 o'clock.

CHICAGO, September 15.—The general committee of railway managers composed of Messrs. Heghlt, Potter, Kimball, Robinson, McMullen and Cable, to which was referred the problem by which differences now existing between western lines could be adjusted, held an all-day session here to-day. The resolution of the present difficulty was supposed to rest upon the dissolution or continuance of the tripartite pool, out of the organization of which the present condition of affairs is supposed to have sprung. One of the prerogatives of the tripartite agreement is that roads east of the Missouri river shall make all through rates to Colorado and California points. When asked to join in the formation of a trans-Missouri pool the Atchison, Topeka & Santa Fe declined to do so as long as the tripartite agreement or the power given roads to it east of the Missouri river was allowed to continue.

At to day's session the continuance of the tripartite pool was not discussed. A plan was proposed however which was adopted unanimously and which will be reported to the general meeting to-morrow. The plan is in the rough and was not even in the form of a resolution. It proposes the formation of four pools on California and Colorado business, two east and two west of the Missouri river, the former to include all Omaha and southwestern lines and the latter to include the Burlington and Santa Fe and Union Pacific roads. It is provided that there shall be four commissioners, and that a conference committee consisting of members of all four pools shall be appointed to arbitrate any difficulty affecting roads both east and west of the Missouri river. A resolution to clothe this committee with power was defeated and the committee is to serve in only an advisory capacity. A proposition by the Union Pacific and Rock Island to recognize the tripartite pool was opposed by the Burlington, Northwestern and Santa Fe, and the matter was dropped without action. As to the probability of the adoption of the plan outlined at the general meeting to-morrow is a matter of considerable doubt, owing to the failure to take any definite action as to the continuance of the tripartite pool. Prominent officials of the roads have declared that until that matter has been finally decided and the tripartite dissolved the formation of new pools was purely conjectural. It is expected some decision on this question will be necessarily reached to-day.

A Disastrous Explosion.

COLUMBUS, Ga., September 15. The boiler of a compress at Eufala, Alabama, exploded this evening. The building and three hundred bales of cotton were consumed. Twenty-five to thirty persons were killed.

COLUMBUS, Ga., September 15. The explosion of the cotton compress boiler at Eufaula, Ala., shook every building in the city to the foundation. The wildest excitement prevailed. A piece of boiler weighing four tons was thrown 200 yards. Two negro men were thrown 75 yards and terribly mutilated. Ten other negroes will die. Pickett burned to death. The body is not recovered. Many others are supposed to be in the building and it is unknown how many perished.

B. R. Bates Resigns.

DENVER, September 15.—Mr. B. R. Bates, assistant superintendent for the past three years of this district, to-day resigned his position with the Western Union Telegraph company at this point, and will probably go east to accept a position with the Baltimore & Ohio Telegraph company, of which his brother is president. Mr. Bates has been with the Western Union Telegraph company for nearly fifteen years, and his resignation is a matter of general regret.

Killed in a Saloon Row.

DENVER, September 15.—Robert Young, the colored man who was stabbed by James Love, also colored, in a Holliday street saloon early yesterday morning, died about five o'clock this morning. Coroner Miller began an inquest this afternoon with closed doors. No decision will probably be reached before some time to-morrow.

The Markets.

NEW YORK, September 15.—Money easy 1 to 2, closing offered 1; prime paper 5½ to 6½; sterling exchange steady 4.83, demand 4.85; governments steady; railways lower; state securities quiet. This was a field day for the bears at the stock exchange. From the opening until the close of business the market was depressed, and under sales for both accounts prices dropped ½ to 5 per cent. with coalers and grangers as the weakest shares. Various unfavorable reports were used to bring about a decline. It was stated that three prominent banks were in trouble and that $100,000 in clearing house certificates had been issued to one of the institutions in question. Upon investigation these reports were pronounced false. Coal shares were affected by statements that the combination was in danger, but after business President Sloan of Lackawanna announced that representatives of coal companies had agreed to restrict the production the first week in October. Another rumor which exerted an adverse influence was a report that St. Paul dividends would be reduced to 5 per cent. These unfavorable reports had the effect of bringing out considerable "long" stock, which materially added to the depression. Delaware & Hudson broke 5 per cent to 67½; Lackawanna 1¾ to 103; Reading 1¾ to 25; Jersey Central 1¼ to 55½; Northwestern 2¾ to 99¾; preferred 2½ to 130; St. Paul ¾ to 50½; Omaha 1¼ to 31¾; Canada Southern 2 to 42; Canada Pacific 1 to 43¾; Chicago, Burlington & Quincy 2 to 120¾; Lake Shore 1¾ to 78½; Union Pacific 1¾ to 47¾, and Western Union 1¾ to 84½. Northern Pacific preferred and Louisville & Nashville were comparatively steady. Compared with Saturday closing prices are 1½ to 4½ per cent lower. Transactions, 356,000 shares.

Mining shares were almost entirely neglected. Sutro sold at 16.

Canada's Cattle Quarantine.

ST. PAUL, September 15.—Regarding quarantine regulations affecting cattle passing from the United States through Canadian territory officials of the Manitoba railway to-day received informal notice of that action. Burrows, deputy minister of agriculture, of Manitoba, has received information that an order of some kind has been passed by the Canadian parliament, but does not know its tenor. Dr. McEachen, veterinary surgeon in the employ of the government of Manitoba, states that the quarantine only applies to stock brought into the country for breeding purposes, and that his instructions from the government at Ottawa are to treat future lots in transit from Montana the same as walkers.

Another Bank Goes Under.

CHICAGO, September 15.—A Journal's Rockford, Ill., special says: N. C. Thompson's bank closed this morning. A notice posted on the door of the bank and signed by Thompson, the president, stated that owing to the stringency of the money market it was unable to meet obligations as they mature and was compelled to suspend. The liabilities are stated to be half a million. The assets include stock in the N. C. Thompson Manufacturing company, and it is believed they are sufficient to cover all liabilities.

A Narrow Escape.

OTTAWA, September 15.—Several members of the party of British scientists in the Rocky mountains had a narrow escape from fearful deaths on Friday. While exploring a railway tunnel below Kicking Horse lake, four miles of the tunnel suddenly collapsed, precipitating an immense rock in the midst of the party, two of whom were slightly injured. The geologists have obtained data by which they expect to be able to definitely establish the exact age of the mountain.

MUNICIPAL AFFAIRS.

Last Night's Session of the City Fathers.

The Police Department Ordinance Adopted Unanimously.

Passage of Bills and Other Routine Business.

At a regular meeting of the city council held last night there were present—Mayor Humphrey and Aldermen Jones, Bent, Hemenway, Draper, Farrar, Strickler and Hughes. The minutes were read by City Clerk McCreery, and approved without change.

A request was presented asking for the reconsideration of the petition presented some weeks ago for the grading of Oak street between Pike's Peak and Kiowa. The matter was referred to committee on streets and ditches.

Dr. Strickler, chairman of the finance committee, asked for further time in which to report on certain bills referred to the committee, which request was granted.

Alderman Hemenway also asked for further time in which to report on the appointment of a fire warden.

Mr. Draper stated that at the request of the council he had provided bound volumes of the city ordinances and they would be found on the table.

Mr. Hemenway said that as yet no contract had been entered into with the Iron Springs company. There being no further reports from committees the council passed on to the introduction and passage of ordinances.

Alderman Jones asked that the police department ordinance introduced by him at the last meeting be taken up and placed on its final passage.

The clerk read the ordinance for the first time as it was printed in full in the columns of the GAZETTE two weeks ago, with the exception of a few technical changes. Alderman Hughes claimed that the ordinance did not seem the same as read by him in the paper and he would move that its adoption be laid over until the next meeting so that all members could vote on it understandingly.

Mr. Jones explained that the members had already had two weeks in which to look over and discover any defects in the ordinance and he did not believe in thus delaying business from time to time.

Mr. Hughes in reply said that it had been plainly shown that too many of our ordinances had been passed hastily and the council now fully realized the results.

With the consent of the council Alderman Jones again read over the ordinance for the edification of the members.

After reading the ordinance it was suggested by Alderman Bent that the power be given the police committee by a full vote to remove any officer, but he was told that the statute would not admit of this.

Mr. Draper asked whether by making even the technical changes the ordinance would not have to be again introduced for passage.

It was suggested that this could be remedied by the suspension of the rules and a motion to that effect was made, seconded and adopted. A vote was then taken on the passage of the ordinance as introduced and carried by a unanimous vote.

Alderman Strickler then called for the reading of the amendment of section six of the liquor ordinance as introduced by him at the last meeting of the council and given in the GAZETTE proceedings.

After the reading Dr. Strickler moved its adoption which motion received a second from Alderman Jones. Dr. Strickler explained that he would like to have the ordinance discussed.

Mr. Jones asked the doctor why the section was not good as it now stood. Dr. Strickler said that it was now a dead letter and the druggists presumed that no court of justice would convict them for selling under prescription. As to the new section Mr. Strickler said that he had conversed with two of the druggists who thought that they could live up to the amendment.

The insinuation that the section as it stood was a dead letter brought Mr. Jones to his feet, which fact he denied.

Dr. Strickler said that what he meant in saying that it was a dead letter was that the druggists preferred to ruin their chances in preference to taking out a license under the section.

Mr. Jones read over the amendment to the ordinance and picked out a number of defects. First, there was too much of a loop hole for the sale of liquor for mechanical purposes. Second, the amendment gave the privilege of selling in case of emergency. Who were to be the judges? Third, who would act on the surveillance committee provided for. He said that he could pick out many other flaws but would not take up the time. Mr. Jones thought that instead of lengthening the ordinance it ought to be shortened. Greeley had a shorter ordinance which was much better enforced than the one in Colorado Springs. What he thought ought to be done was to enforce the ordinance we had. If that could not be done then enact another one. Of course after the experience the city had had many were discouraged and it looked to him as if the justices were trifling with the law.

In this connection Mr. Jones took the opportunity to state that he had been accused by one of the aldermen of not wanting to enforce the ordinance. This he did not look upon as a fair accusation, for he had always taken a decided stand and done what he could. For in doing his business his business had been ruined and in fact he had been driven out of it.

Mr. Jones apologized for the charges that he might have made against members of the council and others for not taking hold and doing something to uproot the evil. He said that his experience had taught him different. If people had business interests to sacrifice they of course felt indifferent. He thought that the manner in which Mr. Stockbridge had openly sold liquor during the session of the convention was an outrage on the people of Colorado Springs, and the visitors did not see it around that our prohibition town as well as its laws was a farce. The physicians he considered responsible to a great extent for the curse and degradation caused by the use of liquor. They too often purchased liquor when unnecessary and even gave prescriptions for bottles of it to be used as a stimulant.

Mr. Jones warmed up considerably in the discussion and although he was opposed to license he thought it would be better to strike the ordinance from the books and resort to high license than to have the laws so carelessly enforced.

Dr. Strickler in response said that when he introduced the amendment he did not think that it would pass, as there was such a feeling of uncharitableness. Mitigating circumstances would not even be entertained and everything seemed to tend to arbitrary legislation. He withdrew the motion for its passage and it was laid on the table through a motion made by Mr. Jones.

The council then passed on to the admitting of bills and the following were allowed:

Hotel per Semple, work on jail	$ 33 00
A. F. Bart, police dept.	16 00
Gazette Publishing Co., printing	40 00
W. H. Roby & Co., books	75

C. S. McCreery, janitor	11 63

Under the head of miscellaneous business the street commissioner was instructed to have three days work done on the grading of Oak street.

The council adjourned after having been given to understand that hereafter and during the winter meetings would be called to order at sharp 7.30 o'clock.

MINNEAPOLIS, September 15.—The sovereign grand lodge of Odd Fellows of the world met here this morning and marched to the Grand opera house, where Hon. E. M. Wilson, in behalf of Governor Hubbard, Grand Master Taft, on behalf of the state grand lodge, and Mayor Pillsbury, on behalf of the city, extended formal welcomes. Grand Sire Leach responded. The delegates then marched to Armory hall, where a secret session commenced. At noon they adjourned to go on an excursion to Lake Calhoun and the falls of Minnehaha. To night a banquet will be served at the West hotel. The business session to-day was devoted to the appointment of committees and listening to the report of officers. Reports show about 500,000 lodge members and 91,000 encampment members, a gain of nearly 12,000 lodge members and nearly 6,000 encampment members during the last year. The available assets of the sovereign lodge are $60,000, a gain of $3,000. In view of the fact that the last session cost $25,000 the grand sire recommends the abolishment of annual sessions and the substitution of biennial sessions. About 300 delegates are present.

A Peacemaker Killed.

ST. LOUIS, September 15.—A Post Dispatch special from Quincy, Ill., says: A cold blooded murder was committed yesterday in the village of Augusta. Three brothers named James, William and Samuel Holden quarrelled six years ago with an unknown man who was killed outright in the affray. Which brother struck the fatal blow is not known, but a deadly feud has existed ever since between James and William. Yesterday the difference culminated in a fierce battle for life between the two. A citizen named Finley interfered, whereupon James deliberately raised his revolver and shot him dead. The murderer fled. Wm. Holden has been arrested. The murdered man was highly respected.

A vote for Kittridge and Curr is a vote against machine methods in elections

The correspondent of the News is a Teller democrat and his utterances should be received accordingly

The state ticket is daily growing in favor in this city. It will receive the largest majority ever given to a republican ticket in this county.

Speaking of overtures to the democracy who suggested some kind of a combination Teller-democratic ticket on Thursday morning, September 4th?

We are glad to notice that the state press so highly appreciates the biographical sketches as to republish them it would be just as well however to give a credit.

The News for a joke stated that the editor of this paper had hired a house to entertain his journalistic friends An afternoon contemporary is taken in by it, and makes comments.

This is a very simple proposition If the republicans have more than twice the vote of the democrats in this county, there is little danger of the election of a democrat if two republican tickets are run.

In answer to enquiries we will say that the names of both John Curr and Colonel Kittredge will remain on the ticket The republicans of this county shall have the opportunity to say whether the majority or a clique shall rule

The effort to make the Campbell Barker ticket the regular ticket for straight republicans to vote will not influence many in this city. It is known that Messrs Kittridge and Curr were nominated by the majority of the delegates in the county convention No certificates or endorsements can make the minority ticket the one to be supported by the republicans of this county The majority should rule

Mr. Rothacker was a member of the Routt Arapahoe delegation— He gives the following in the Opinion regarding the contest in this county' "It is quite clear to our mind that "the Hill delegation from El Paso county "should have been admitted to seats in the "state convention Both honesty and policy "demanded this If the evidence showed "anything at all, it showed that they were "elected, and we can only regard the failure "to seat them as an unfair usurpation, made "possible by the strength of a majority The "editor of Opinion was not in the con "vention when the vote came up, but he left "a distinct request with the chairman of the "Arapahoe delegation to vote him for the "seating of the Hill delegates if it was the "only vote cast on that side in the con "vention. It was not done and Arapahoe "was cast solidly for the majority report, but "the real vote was 53 to 1. We understand "that the Hill ticket in El Paso will remain "in the field. We hope it will and that it "will win. It was nominated by honestly "elected delegates and it has a right to the "vote of every republican in the county. It "is certainly worth while to be decent in this "matter." As a matter of fact nearly every member of the convention recognized the justice of our case. The only explanation for many delegates voting against the admission of the majority is that the question was decided as one of politics and not of right and justice

Consistency

The Routt delegation from Arapahoe was admitted and the Hill delegation from El Paso excluded on precisely the same ground Consistency,' etc —[Salida Daily Mail

Catching a Horse-Mackerel

A correspondent of the New York Sun gives the following conversation with the ancient fisherman

'Going after whales?' I asked a bronzed fisherman who was coiling a long rope into his boat on the beach near New Orleans

No" was the reply, in broad Yankee dialect, that sounded strange where French is mostly spoken 'I'm goin' a hoss mackerelin', an' ef you wanter put in a good solid day's work ship afore the mast, I d be glad to hev your company Jist clear that line while I coil, will ye?' said the fisherman, as soon as I had verbally signed papers and shipped The rope which was about 200 feet long was coiled in the stern of the boat the cable was slipped, and the Grampus bore away before the wind churning and puffing like her namesake 'That's a delicate look in' hook " said the skipper, as he took up a giant hook that might have passed for an ice hook, 'but I tell ye they want a hook that'll hang on They're the strongest fish that swim an' I ain't exceptin' sharks Sharks is good at a steady pull, but a hoss mackerel will go a mile while a shark's makin' up his mind whether he's hooked or not I reckon we might as well hev over here," continued the skipper, 'an' ef you'll take the tiller a minute, mate, I'll fix the fly Hoss mackerels ain't very particular," he said, as he forced a large eight-pound hake onto the barbed hook "What they want is something solid and sweet, an' hake jist about hits the figger Ye see they make a shine as they tow along "

The fisherman slackened away on the line until all but about twenty feet was out, and then took a hitch in the line

"That's what I call a tell tale " he continued, pointing to the hitch ' When that gives and slips you'll know we're in fur business Just slack off your sheet a trifle, so she won't make so much way Yer wanter take it kinder slow, jest ter keep the hake amovin' natural like an' not take it out of their mouths at the first pull Sometimes I've fished all day an' never got a bite, and then again I've been off shore here a coddin', and the minute I'd get a fish up to the top of the water along would come one o' these fellers and take him off I remember one day particular when Jo—"

"Right here came a rasping sound, and the "tell tale' disappeared with a rush

'Down with the helm!' shouted the skipper, and down it went, the little craft rushing up into the wind, shaking herself like a wet dog The line was stiff as a bar of iron when the fisherman seized it, but by a rapid paying out he succeeded in passing it forward and making it fast The object of this was evident a moment later, when the boat buried her nose and dashed away dead in the wind's eyes, towed by the powerful fish.

'Ye see," said the skipper, keeping his eyes on the singing line, 'if he got the strain on over the side or astern we'd hev to go over or cut the rope Now you want to keep her right after him "

This proved no easy matter the fish was making frequent side rushes from right to left hauling the boat here and there and making it almost an impossibility to guide her Suddenly there came a slack on the line

'Stand by!' shouted the skipper, hauling in on the slack with all his powers, ' put her head the way he goes!'

For a moment the line came on as if nothing were on, but in a second it leaped again The man darted back to get clear of it, while the bow of the boat was turned in the new direction indicated not a moment too soon, as with a singing sound the line tautened burying the boat to her very deck Time and time again did the wily adopt these tactics to rid itself of the obnoxious load, but at every turn it met the equal cunning of the fisherman, who was an old hand at such pranks

"This thing can't last all night," said the skipper There's an end to all things Jist clap on here and see ef we can't get in a little slack " The helmsman relinquished the tiller, and both laid hold of the line The first pull seemed to spur the fish on to renewed exertions A foot of line was soon gained, and with a rush was lost It was regained and as much more added to it, and then began a tug of war Slowly the line came in, and finally, when within fifty feet of the boat, the monster rose five feet into the air and showed its shapely length.

'It's about up with him when he does that," gasped the skipper 'Now slack quick! Now in with it again! Now let go again!" Thus gradually the great fish was hauled this way and that, and finally half drowned in its own element, rolled on its back at the bow, and after a few more struggles succumbed to the blows of the skipper's mallet

"That's the biggest chap I ever tackled," said the fisherman, as he made a rope fast to the fish's tail, and it swung alongside the boat 'They're the kings, an' no mistake We can't git him inter the boat, so jist keep away, and we'll tow him ashore

When the captured fish was hauled upon the sands by the windlass that the skipper used to pull out his boats it measured ten feet in length, and was estimated to weigh nearly 1,000 pounds The horse mackerel is a magnificent fish in appearance, being in fact a gigantic mackerel, resembling the European tunny They have a wide geographical range Specimens have been caught twenty feet in length, with a weight of about half a ton, and so powerful that even large vessels have been towed by them Like the swordfish, they do not breed on this side of the water, but undoubtedly emigrate to the European water for this purpose unless perhaps the eggs are deposited in mid Atlantic, which is hardly probable The fish prey upon their smaller relatives, and go south or out to sea in the winter, appearing on the Massachusetts coast about June 1, and here two weeks later

'The author of the work was one of the leading actors or rather managing directors in the coup d'etat which in December, 1852 placed Louis Napoleon on the throne of France In order that he might more effectually assist in that deep masterstroke, he was at his own request appointed to the prefecture of police. To him, therefore fell the task of arranging for the arrest of such of the deputies as were likely to give trouble, and he relates with something like pride how perfectly he succeeded in accomplishing his purpose The notes of the editor are judiciously interspersed, and are useful in recalling facts to which no more than passing allusion is made in the text.' —The Bookseller

Its Wo nin, Dis lay

TOPEKA, September 15 — ... the department of immigration of the Atchison, Topeka & Santa Fe railway shipped from this city an exhibition of grain, minerals and other productions of the country along the line of this road in Kansas, Colorado and New Mexico to the world's fair at Amsterdam. To-day word was received that the first prize, a gold medal, had been awarded this exhibit over all competitors. The exhibit was a splendid advertisement for the whole country through which this road runs, and will no doubt do much to attract attention to its resources. Several other American roads made displays at Amsterdam.

Knocked Out with Gloves

NEW YORK, September 15 — A sparring match between Walter Watson of England and Professor Wm C McLellan took place to-night, six 4-minute rounds, Queensbury rules. McLellan seemed to be in better condition. In the first three rounds the sparring was very light. In the fourth McLellan got in two good ones. In the sixth and last round Watson laid McLellan out twice cleanly. He tried to meet Watson but was again knocked down. Watson was declared the winner.

Over it in pencil were the words, "My mother's address is Mrs B R Gould, 176 State street, Brooklyn, N. Y."

A Lunacy Sensation

MONTREAL, September 15 — A sensational case will soon be brought before the courts. It is that of a rich military pensioner confined in Lorgne Pointe asylum at the demand of a clergyman who draws the man's pensions and manages his estate. "THE USURPER!"

An Episode in Japanese History.

A Romance. Translated from the French of Judith Gautier by Abby L. Alger. $1.50

R. H. Stoddard, the poet, writes of the "Usurper". "It is a romance in the best sense of the word. There is nothing in English fiction with which we can compare a romance like this unless it be Scott's 'Ivanhoe.' We do not propose to tell, even to indicate, the story of this romance, which is well conceived, shapely in its parts and consistent as a whole, not to hint at the personality of the different characters, two of which are as noble as they are beautiful, all that we propose to do is simply to say. Here is a prose poem of the Japan of A. D. 1615. It represents the life and manners of that country at that time the splendid, strong life and the barbaric manners—and so represents them that they pass before the imagination like a gorgeous pageant a pageant the picturesqueness of which recalls its only parallel in modern fiction—the background of George Ebers's 'Daughter of an Egyptian King.' If Mlle. Gautier is not a woman of genius she is nothing."

GUERNDALE. By J S of Dale. Paper edition 50 cents, cloth, $1 25.

THE LADY OR THE TIGER AND OTHER STORIES. By Frank R Stockton. $1.

No magazine story for a very long time has given rise to such animated discussion as Mr Stockton's enigmatic ... The Lady or the Tiger. His Wife's Deceased Sister. The Transferred Ghost. That Same Old Coon. Mr Tolman. The Training of Parents. Every Man His Own Letter Writer, and the other stories which make up this collection, are equally remarkable for their novelty, surprise of plot, and cleverness.

THE KING'S MEN. A Tale of To-morrow. By Robert Grant, John Boyle O'Reilly, J S of Dale, and John T Wheelwright. 1 vol, 12mo, cloth, $1 25.

This daring and ingenious story of the future is unquestionably destined to be the most widely discussed book of the summer. The brilliant literary partnership which produced it has aroused the keenest curiosity, and certainly the experiment has been the boldest in the history of literary collaboration. Of the plot, or of what can be gathered from the story's motto concerning the ... politics in the reign of King George the Fifth ... That the audacity of their conception is fully supported by the ... telling and exciting in ... It is crowded with action and ... complication and yet the powers which the authors have shown elsewhere are never lost in its rapid movement.

Though not a political document, the story, "The End of New York," by Park Benjamin will be one of peculiar interest to those who a few years ago were disposed to criticise Mr Blaine's foreign policy. It will be found in the midsummer number of Stories by American Authors. For sale everywhere, 50 cents.

"A brilliant series" is what the Boston Courier calls Scribner's Stories by American Authors. Five volumes are now published containing nearly thirty strikingly individual and meritorious tales. Bound in cloth, 50 cents each.
